Learn

How Biopac Student Lab Home Works

1

Instructor decides whether to lease or buy BSL Home kits, decides number of kits needed for class, then places order.

2

LEASE OR BUY

Students receive a link to register online. BIOPAC ships kits directly to students and handles all logistics.

BIOPAC ships kits directly to instructor for distribution to students. Instructor handles all logistics.

BIOPAC can also ship all kits to instructors to distribute if preferred.

3

Students follow lesson guides, collect data, and submit work to instructor.

Students ship devices back to BIOPAC or return to instructor.

Return

Students return devices to Instructor.
